SUMMARY

I am Mustapha Farouss, a Full-Stack Web Developer with a background in Practical Engineering and Process Design. I apply a methodical, problem-solving approach to building full-stack applications, and leverage tools like n8n for workflow automation, focusing on creating optimized, scalable, and effective digital solutions.

EXPERIENCE

Full-Stack Developer (Freelance Project) | E-Commerce Web Application | Jan 2025 - April 2025

Remote

Designed and developed a full-stack e-commerce platform from concept to deployment, focusing on creating a secure, user-friendly, and scalable solution that mimics real-world business needs.

Technologies: Laravel & MySQL (Backend), React & UnoCSS (Frontend).

Student Ambassador | ISGI | May 2025 - August 2025

Casablanca, Morocco

Selected to represent and promote the institution, serving as a liaison between the student body and faculty while organizing key campus events.

Key Achievement: Organized and coordinated a digital development hackathon, managing logistics and participant engagement to foster innovation and technical skills within the student community.

SKILLS

Hard Skills:

Frontend: React, TypeScript, Vite, UnoCSS, Tailwind CSS, Responsive Web, Design UI/UX Principles.

Backend: Laravel (PHP), RESTful API Development.

Databases: MySQL, MongoDB.

Programming Languages:

JavaScript/TypeScript, PHP, Python.

DevOps & Infrastructure: Git, GitHub, Docker, n8n (Workflow Automation).

Soft Skills:

Creativity & Innovation: Re-imagining development workflows to build faster, more robust web solutions.

Leadership & Initiative: Demonstrated through ambassadorship, hackathon participation, and certified commitment.

Problem-Solving & Analytical Thinking:

Methodically breaking down complex challenges into actionable steps, designing efficient architectures, and writing clean code to deliver effective solutions.

EDUCATION

TS.Digital Development ISGI (Institut Supérieur de Gestion et d'Informatique). **Sep 2024 - Jul 2026**

Qualifying Certificate in Entrepreneurship ISGI.

Sep 2024 - Jul 2026

Machine Learning Qualification ISGI.

Sep 2025 - Nov 2026

Baccalaureate in Mechanical Sciences - Lycée Jaber Bno Hayyan.

Sep 2023 - Jul 2024

ACHIEVEMENTS

3rd Place Winner | OFPPT Digital Development Hackathon (May 2025)

Recognized for developing an innovative technical solution in a competitive, timed environment.

PROJECTS

Full-Stack E-Commerce Platform

<https://github.com/mostaphaxs/EcommerceProject>

A high-performance, secure online store built with Laravel and React.
